GOOD NEWS FROM TEXAS.

MR. THOMAS A. HOWARD, of Honey Grove, Fannin county, Texas, under date of April 5, 1883, writes as follows:

"I have been suffering during several years from

severe illness, and a general breaking down of my physical system, and have tried the treatment and prescriptions of many doctors far and near, and travelled to the Hot Springs and other minera springs famous for their remedial qualities, drinking the waters and bathing systematically in their healing depths, but all to no avail, as I steadily failed in health; and aithough informed by my physicians that my ailments and weaknesses were the result of kidney diseases of a dangerous character, they could give me nothing to cure me. During the past two years my sufferings at times were dreadful, and the most indescribable pairs in the regions of the Telegraphic Situation.

### AN EXAMPLE OF SENSATIONAL JOUR. class of Democrats, and unprejudiced citi-

A specimen of sensational journalism, actuated in addition by prejudice and hate, has just been presented. The journalist, of all others, should be just. He should be quite as certain of his facts as is a Court of the truth upon which it bases a judgment. The San Francisco Chronicle, however, is notorious for its own ends. On these it bases its comments and thus seeks to warp public judgment to its own views to make the proceeding upon false premises. It is to proceeding upon false premises. It is to prove a parallel canal being success. The attendance was nearly 5,000. a style of journalism in which, until the advent of the rejuvenated Examiner, the Chronicle enjoyed the distinction of being the sole representative among the daily press of the cities of the coast. The example referred to is recent. A collision occurred on a railroad near Oakland. The San Francisco Chronicle has an especial hatred of railroads, and leaves no opporand France will sustain him, and England tunity unavailed of to put in the knife. Some days after the accident that paper in an article, especially venomous, stated as facts that the railroad company had made no investigation, had taken no steps to fix the responsibility, and still retained in its employment the men believed to be responsible. It went on to compare this neglect and this defiance of public sentiment with the system prevailing on leading roads at the East, where, after an accident, there is immediate suspension of cident, there is immediate suspension of the train men, an inquiry, discharge, and a black-listing of the guilty parties. This system it cordially approved and held up to a proper realization of the facts presently start on a ten-months' journey toward the system it cordially approved and held up and will not force an issue with their for adoption by the California companies. Now comes Mr. Manager Towne, of the Central Pacific, and exposes the insincerity and dishonesty of the Chronicle, proving conclusively that it was wholly ignorant of the subject, and had not the common honesty to inform itself of the facts. He shows, first, that the inquiry, suspension and now developed that we did not fully state the case. black-listing system credited to the East. Central Pacific Railroad Lands in Colusa County.

THE FOLLOWING EMBRACES ALL THE LAND OWNED BY THE C. P. R. R. CO., IN THE TOWNships designated in Colusa county. The list will be found to include some excellent agricultural land a part of which is now under lease, and upon which crops of grain were produced during the current season. Attention is called to the fact that the graded price is reduced about forty per cent. To a single purchaser, for cash, a further reduction of ten per cent. upon existing grading will be made.

San Francisco Froduce Market.

San Francisco, July 17th—1 P. M.

FLOUR—Trade is good. The local demand is active, and the inquiry on shipping account is quite free. Small purchases are reported for British Columbia and the Hawaiian Islands, while there is more or less movement caused by filing orders for Hongkong, to go forward at the end of the week by steamer. Best City Extra, \$5@5 50; medium grades, \$4@4 50; shipping superfine, \$3.75@4 \$9 bil. WHEAT—Spot business is very slow. Leading exporters are apparently either waiting for better prices at Liverpool, or else for a lowering of asking freight rates by the owners of tonnage now in the bay disengaged. It is stated that liberal purchases are being made in the interior, and the quietude of the local market can therefore hardly be considered a fair index of the situation. We are now fairly launched into the new harvest year, and business ought to be more lively than it is just now. No. 1 grades suitable for export are quotable at \$1.574@1 100, though offerings are not free at anything below the higher figure. Millers have been paying as high as \$1.70 for choice lots of old, but they are not disposed now to give over \$1.674 \$0 ctl, and this price seems to be generally accepted.

At the call session of the Produce Exchange, the speculative fee ing was sufficiently pronounced to San Francisco Produce Market.

July.... Seller 1883.... uyer the season..... 1 05 1 0 OATS-The market continues uns not likely that an established basis will be touch his week. Prices have a declining tendency, and depends largely upon the pressure to realize as low low a level will be reached. Choice to-day would scarce bring \$1.80, while poor lots could not be placed above \$1.50 \$0 ctl. This range in figures fairly represents the situation. Ryg—Trade rather dull. Prices easy. Quotable at \$1 30@1 40 \$2 ctl.

Conn—California is scarce and quotations are Tominal. Nebraska has again been lowered. Csli-lornia, \$1 50@1 55 for large Yellow, and \$1 60@ 162½ for small Yellow. The asking figure for Ne-braska is given at \$1 47½ \$2 ctl.

Hors—A better feeling is reported, though there is no increase in trade, which for some time has been largely nominal. The Canadian crop is reported to be more or less damaged by insects, and though the acreage this year was increased, it is claimed that the prospects just now are not favor-able for as good a yield as usual. Accounts of bad weather in England also help to buoy up the spirits of holders. The present time is admitted to be a critical period in the English harvest, and any discouraging circumstance in that direction will have a marked influence in the situation on this coast. Prices nominal at 25@30c \$1 b.
